Finding Your Documents

Click **Documents** to open the list of document types that are available on QuickConnect.

If a report has never been published for your organization it will not be available.

Home > Battery Allowable

Battery Allowable

There are no published Battery Allowable documents.

Selecting the Production Month

Documents for the most recent available production month are displayed by default when you select your document type. Click **Production Month** to select an alternative production month for your document.

Documents are available from the month that your organization registered for Husky QuickConnect.

Documents

Downloading Individual Documents

You can download your document as a PDF file or you can choose to receive your report in CSV format. A Comma Separated Values (CSV) file is a plain text file that contains a list of data, separated by commas, which is most commonly used to exchange data between different applications. The data in the CSV file is easily readable and can be opened and viewed with a text editor like Notepad or a spreadsheet program like Excel.

Click the download button for your file type next to each document you want to download to create an individual PDF or CSV file of each document you selected.

Lawton Energy

<input type="checkbox"/>	Download	Product	Facility
<input type="checkbox"/>	 	LLB - 0000050	Hardisty
<input type="checkbox"/>	 	WCB - 0000194	Hardisty

PDF

Downloading Multiple Documents

When you have selected multiple documents, select the file format that you want to receive in the format box.

Lawton Energy
